

Sample System Forms

QuickBite — Intelligent Food Delivery Database System

Addis Ababa Science and Technology University - Software Engineering - 2026

This annex contains sample input and output forms for the QuickBite system.

Input forms show how data enters the system. Output reports show how the system presents results.

FORM 1 — Customer Registration Form

Maps to: INSERT INTO customers + INSERT INTO addresses

Personal Information

First Name _____
Last Name _____
Email Address _____
Phone Number _____
Password _____

Default Delivery Address

Street / Area _____
Sub-City _____
Woreda _____
City Addis Ababa
Address Label ☐ ☒ Home ☐ Work ☐ Other

Account Settings

Starting Loyalty Tier ☐ Bronze (default)

FORM 2 — Place New Order Form

Maps to: INSERT INTO orders + order_items + payments

Customer and Restaurant

Customer ID _____ Customer Name (auto-filled)
Restaurant _____
Delivery Address (select from saved addresses)

Order Items

#	Item Name	Category	Price (ETB)	Qty	Subtotal
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____
Items Total			_____		

Pricing and Payment

Items Subtotal _____ETB
Delivery Fee _____ETB
Surge Multiplier _____x
Discount _____ETB
Total Amount _____ETB

Payment Method

- Cash
- Credit Card
- Debit Card
- Mobile Money (Telebirr)
- Wallet

Special Instructions _____

FORM 3 — Driver Registration Form

Maps to: INSERT INTO drivers

Personal Information

First Name _____
Last Name _____
Email Address _____
Phone Number _____
Password _____

Vehicle Information

Vehicle Type

- ✓ Bicycle (max 5km)
- ✓ Motorcycle (max 20km)
- ✓ Car (max 50km)

License Plate _____

Current Location

Latitude _____
Longitude _____

Availability Status ☐ Available ☐ Unavailable
